

## **Agnès Ricroch - Phd, HDR**

She is a member of the Academy of Agriculture of France (deputy secretary of Life Sciences section). She is associate professor in Evolutionary Genetics and Plant Breeding at AgroParisTech in Paris, France. Her research concerns gene flow and biosurveillance of GMOs at Université Paris-Sud. She holds a PhD in Genetic Resources and Plant Breeding and Accreditation to Supervise Research in Genetics (Orsay University). She is adjunct professor at Pennsylvania State University, College of Agricultural Sciences, USA since 2012. She was a Visiting Researcher fellow at Texas Tech University, and Duke University, USA, and the John Innes Institute, UK. She was an Invited Professor at University of Melbourne, Australia.

She is teaching genetic resources, genome evolution, plant biotechnology, and bioethics.

She is elected member of the board of ParisTech (Paris Institute of Technology, a consortium of 12 'Grandes Ecoles' or Engineering and Management Schools).

She is member of the Society of Writers of France. She is the laureate 2012 prize of the Limagrain Foundation of Academy of Agriculture of France.
